FREEDOM OF RELIGION

We defend the rights of individuals to engage in any religious activities which do not violate the rights of others. In order to defend religious freedoms, we advocate a strict separation of church and state. We oppose government actions which define, aid, or attack any religion or religious membership. We oppose taxation of church property for the same reason we oppose all taxation.

Freedom of religion also includes freedom from religion and the right to not believe or engage in religious activities. Individuals may choose which belief system or lack thereof they find most suitable, provided they do not impose on the rights of others.

Legislative, regulatory, or judicial decisions about what is a crime must not discriminate on the basis of religious belief or membership. No religious test must ever be required to assert the right to act in a way that does not violate the rights of others. Similarly there must be no religious exemption from responsibility for actions which violate the rights of others. Those who choose not to practice a faith should have the same rights and responsibilities as those who do.

FREEDOM OF COMMUNICATIONS

We defend the rights of individuals to unrestricted freedom of speech, freedom of the press, and the right of individuals to unfettered expression. Language that is deemed offensive is not a cause for legal action. The possibility that some listeners may become disorderly and commit criminal acts is not a valid excuse for censorship. We oppose government-imposed or subsidized speech codes as well as laws against "hate speech."

Freedom of conscience holds that individuals reserve the right to remain silent in any circumstance. Governments should not force anyone to speak, either by torture or any other means. Any attempt to threaten or force someone

to speak involuntarily is a serious abridgement of individual rights and human dignity.

We recognize that freedom of expression is possible only as part of a system of full property rights and recognize that freedom of communication does not extend to the use of other people's property to promote one's ideas without the voluntary consent of the owners. We oppose government ownership, control, funding, and subsidization of any communications organization, medium, or spectra and call for the abolition of the Federal Communications Commission.

THE RIGHT TO SELF-DEFENSE

The only legitimate use of force is in self-defense. This right inheres in the individual, who may seek to be, or agree to be, aided by any other individual or group. Private property owners shall be free to establish their own conditions regarding weapons. The right of defense extends to defense against aggressive acts of government.

We oppose all laws at any level of government restricting, registering, or monitoring the ownership, sale, manufacture, transport, or transfer of firearms, firearm accessories, ammunition, or any other tool that could be used for self-defense, including any requirements for background checks. Accordingly, we support abolishing the Bureau of Alcohol, Tobacco, Firearms, and Explosives (BATFE) and favor the implementation of fully-legal carry of weapons, open or concealed, without any permit requirement.

THE RIGHT TO PROPERTY

We hold that property rights are individual rights and, as such, are entitled to the same protections as all other individual rights. We oppose any recognition of fiat claims by national governments or international bodies to unclaimed territory. Individuals have the right to homestead unowned resources, both within the jurisdictions of national

governments and within such unclaimed territory as the ocean, Antarctica, and the volume of outer space. We further hold that the owners of property, including land, have the full right to control, use, rent, collateralize, dispose of, or in any manner enjoy their property without interference until and unless the exercise of their control infringes the valid rights of others.

Eminent domain, civil asset forfeiture, governmental limits on profits, governmental production mandates, and governmental controls on prices of goods and services (including wages, rents, and interest) are abridgments of such fundamental rights.

Where property, including land, has been taken from its rightful owners in violation of individual rights, we favor restitution to the rightful owners.

We specifically condemn current government efforts to regulate or ban the use of property in the name of aesthetic values, riskiness, moral standards, cost-benefit estimates, or the promotion or restriction of economic growth. We demand an end to the taxation of privately owned real property, which makes the state the de facto owner of all lands and forces individuals to rent their homes and places of business from the state

We support the right of individuals to defend their private property, including the right to terminate perceived threats such as surveillance balloons or drones operated by domestic or foreign governments or other hostile entities.

We support the right of individuals to own land and property collectively, if they so choose, for the purpose of living together (e.g., hippie communes, Israeli kibbutzim) or other activities (e.g., community gardens), and to decide amongst themselves how that collective ownership works in practice.

LIBERTARIAN PARTY STATEMENT OF PRINCIPLES

We, the members of the Libertarian Party, challenge the cult of the omnipotent state and defend the rights of the individual.

We hold that all individuals have the right to exercise sole dominion over their own lives, and have the right to live in whatever manner they choose, so long as they do not forcibly interfere with the equal right of others to live in whatever manner they choose.

Governments throughout history have regularly operated on the opposite principle, that the State has the right to dispose of the lives of individuals and the fruits of their labor. Even within the United States, all political parties other than our own grant to government the right to regulate the lives of individuals and seize the fruits of their labor without their consent.

We, on the contrary, deny the right of any government to do these things, and hold that where governments exist, they must not violate the rights of any individual; namely, (1) the right to life – accordingly we support prohibition of the initiation of physical force against others; (2) the right to liberty of speech and action – accordingly we oppose all attempts by government to abridge the freedom of speech and press, as well as government censorship in any form; and (3) the right to property – accordingly we oppose all government interference with private property, such as confiscation, nationalization, and eminent domain, and support the prohibition of robbery, trespass, fraud, and misrepresentation.

Since governments, when instituted, must not violate individual rights, we oppose all interference by government in the areas of voluntary and contractual relations among individuals. People should not be forced to sacrifice their lives and property for the benefit of others. They should be left free by government to deal with one another as free traders; and the resultant economic system, the only one compatible with the protection of individual rights, is the free market.

The Libertarian Party was founded as a radically different alternative to the old, established political parties.

We don't pick our positions on issues based on polls.

As The Party of Principle, we base them on a consistent framework of ideas.

Help promote our ideas and our candidates by getting involved in the Libertarian Party today!

TRADITIONAL CIVIL LIBERTIES

A LIBERTARIAN PERSPECTIVE

LIBERTARIAN PARTY  
RADICAL CAUCUS

THERE AIN'T NO SUCH THING AS A FREE LUNCH

#### THE LP RADICAL CAUCUS BELIEVES

The Libertarian Party should support individual liberty because it's the right thing to do, and because it's the best way to benefit the greatest number of people.

The Libertarian Party is the only political party that traditionally advocates for real freedom from government interference. We should emphasize this revolutionary approach rather than watering it down with uninspiring language that is a de facto endorsement of the status quo.

Our language should inspire by reflecting our goals, not the compromises we may have to accept on the way to gaining them. The Libertarian Party should be active in all areas of the political sphere with the expectation that individuals who hear and understand our message of freedom and the steps we can take today to increase liberty will choose to join enthusiastically in our journey.

The Libertarian Party should always steadfastly oppose harmful government policies, regardless of any promise that supporting one bad policy will ensure that another is abolished.

#### MISSION OF THE RADICAL CAUCUS

The LPRC seeks to support the re-radicalization of the U.S. Libertarian Party (LP); and further to promote a clear, radical vision of libertarianism through education and electoral advocacy both within the LP and outside of it.

## Badge-A-Matic I

This is a highly reliable button press and when purchased often highly cost-effective. Variants are available in many sizes, albeit only in the non-standard sizes introduced by A-Minit.

Caveat: does not work reliably with Tetre supplies except as described in the section on Tetre supplies.

RECOMMENDED.

## Badge-A-Matic II

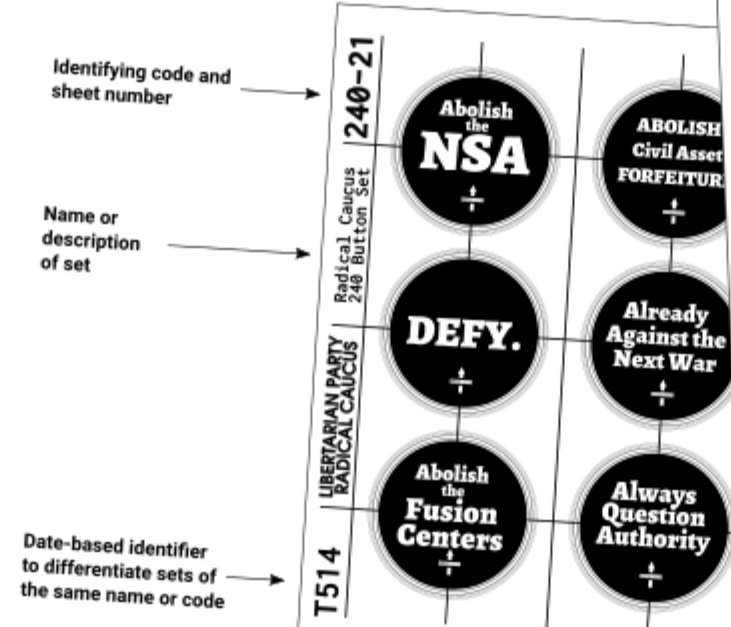

This is probably the most cost-effective (and safe) press on the market, especially if purchased used. It is available for 2 3/8 inch button supplies. Caveat: does not work reliably with Tetre supplies except as described in the section on Tetre supplies.

While the protective door on the BAM-II elect initially seem cumbersome, it's an essential safety feature designed to prevent accidents. This precaution comfortably produce buttons over extended periods without compromising on personal safety.

Abolish the TSA is too polite.  
Do you have something angrier?

## Button Sheet Features for 2 1/4, 2 3/8, and 58mm

### GETTING A TABLE

Once you know you plan to table at an event, look at the web page or flyer to see if they openly give a price for an event table.

These tables are normally provided by the event organizers (perhaps indirectly, such as via the hotel that's hosting a state party convention). Unless it's a very large event, the price should

### Logo Placement

- The logo cutout area is positioned at the placement dependent on text arrangement. It is height, with the LPRC logo centered horizontally for more precise description of vertical size categories.
- Logo height is specified for each size category. Logo height should be 21.5% of the safe area diameter.

### Square

The square is only nominally 2 inches by 2 inches as needed for other sizes, including use of areas need to be handled separately for dimensions specified here.

### ABOLISH THE DOT

The Department of Transportation, established in 1966, is responsible for federal highways, aviation, and public transit. It is also a source of wasteful spending and corruption. Transportation infrastructure would be better managed by the private sector or at least a more local and less unaccountable level of government.

### ABOLISH THE DRINKING AGE

The federally mandated minimum drinking age of 21 is an overreach of government authority, infringing on the personal freedoms of legal adults. The decision should rest with individuals, families, and private establishments, not the state. Eliminating the drinking age would respect the autonomy of young adults to make their own choices and accept the consequences, consistent with the principles of individual liberty and responsibility.
