

SEXUAL RIGHTS

Consenting individuals have the right to private choice in sexual activity.

We support the repeal of all laws and policies which are intended to condemn, affirm, encourage, or deny sexual lifestyles or any attitudes about such lifestyles. Further, we oppose any government attempts to dictate, prohibit, control, or encourage any private lifestyle, living arrangement, or contractual relationship.

Who or how many somebody loves is none of the government's business.

We support separation of marriage and state. Government marriage license regimes were introduced as tools of control like any other license, and therefore we call for their immediate abolition. No free individual should be expected to obtain a "permission slip" from the state in order to marry.

We support the repeal of all laws prohibiting or regulating sex work including prostitution, whether practiced by individuals or in the form of businesses such as those operating brothels, massage parlors, or other facilities.

SELF-OWNERSHIP, FREEDOM, AND RESPONSIBILITY

Individuals own their bodies and have rights over them that other individuals, groups, and governments may not violate. Individuals have the freedom and responsibility to decide what they knowingly and voluntarily consume, and what risks they accept to their own health, finances, safety, or life, provided those choices do not violate the rights of others.

PROTECTION OF PRIVACY

The individual's right to privacy must not be infringed. Governments must not use electronic or other means of covert surveillance of an individual's actions or private property without the express consent of the owner or occupant. Correspondence, financial transactions and records, medical records, legal records, employment records, and the like must not be open to review without the express consent of all parties involved in those actions.

We support the natural rights of individuals to be secure in their persons and property against unreasonable searches and seizures and oppose any government use of search warrants to examine or seize materials belonging to innocent third parties. We also oppose and call for the abolition of police roadblocks and practices of testing drivers for intoxicants, stopping mass transit vehicles and searching passengers, and Terry stops (also called "stop-and-frisk") in the absence of probable cause.

All federal, state, local, and other government compilations of data must be conducted only with the express consent of the persons from whom the data is sought. To this end, we call for the abolition of the National Security Agency and any other agencies that conduct unwarranted mass surveillance; the abolition of the Foreign Intelligence Surveillance Court, which rubber-stamps secret warrants that can't be challenged; and the abolition of the USA PATRIOT Act, USA FREEDOM Act, Alien and Sedition Acts, Espionage Act, and any other legislation, executive orders, or regulations which authorize violations of rights.

We support the rights of people to develop, sell, and use encryption technology and distributed software that allows users to protect their privacy. Specifically, we oppose any requirement for disclosure of encryption methods or keys ("back doors") and any

requirement for use of government-specified devices or protocols. We also oppose government classification of civilian research on encryption methods, and we oppose any attempts to regulate virtual currencies.

When government agencies violate privacy rights, people who are knowledgeable of these violations have a duty to inform the public. To that end, we support protections for whistleblowers and oppose efforts to charge whistleblowers with espionage for exposing governmental wrongdoing.

If a private employer screens prospective or current employees for drugs or medical conditions, that is a term of that employee's labor contract with the employer. Such screening does not violate the rights of employees, who have the right to boycott such employers if they choose. Private contractual arrangements, including labor contracts, must be founded on mutual consent and agreement in a society that upholds freedom of association. We oppose any use of such screening by government; we also oppose mandating it of private employers.

We oppose the requirement to possess an identity card, for any purpose, such as employment, voting, or border crossing, and call upon the Congress to repeal REAL ID which in effect creates a national identification system.

We further oppose the nearly universal requirement for use of Social Security number(s) as personal identification codes, whether by government agencies or by intimidation of private companies by governments.end

STATEMENT OF PRINCIPLES

We, the members of the Libertarian Party, challenge the cult of the omnipotent state and defend the rights of the individual.

We hold that all individuals have the right to exercise sole dominion over their own lives, and have the right to live in whatever manner they choose, so long as they do not forcibly interfere with the equal right of others to live in whatever manner they choose.

Governments throughout history have regularly operated on the opposite principle, that the State has the right to dispose of the lives of individuals and the fruits of their labor. Even within the United States, all political parties other than our own grant to government the right to regulate the lives of individuals and seize the fruits of their labor without their consent.

We, on the contrary, deny the right of any government to do these things, and hold that where governments exist, they must not violate the rights of any individual; namely, (1) the right to life – accordingly we support prohibition of the initiation of physical force against others; (2) the right to liberty of speech and action – accordingly we oppose all attempts by government to abridge the freedom of speech and press, as well as government censorship in any form; and (3) the right to property – accordingly we oppose all government interference with private property, such as confiscation, nationalization, and eminent domain, and support the prohibition of robbery, trespass, fraud, and misrepresentation.

Since governments, when instituted, must not violate individual rights, we oppose all interference by government in the areas of voluntary and contractual relations among individuals. People should not be forced to sacrifice their lives and property for the benefit of others. They should be left free by government to deal with one another as free traders; and the resultant economic system, the only one compatible with the protection of individual rights, is the free market.

The **Libertarian Party** was founded as a radically different alternative to the old, established political parties.

We don't pick our positions on issues based on polls.
